Education

Anil Neerukonda Institute of Technology and Sciences

2022 – 2026

B.Tech - Computer Science and Engineering(AI and ML) - **CGPA : 8.52**

Visakhapatnam, Andhra Pradesh

Relevant Coursework

• Data Structures • Algorithms Analysis • Database Management • Full Stack • Machine Learning

Experience

EDUMOON

May 2024 – June 2024

Frontend Developer Intern

Visakhapatnam, Andhra Pradesh

- Built and maintained responsive web pages using HTML, CSS, and JavaScript.
- Assisted in improving the design and usability of the website.
- Wrote clean, structured code while following basic web development practices.

Projects

Learning Path Generator with MCP 🔗 | Python, Streamlit, APIs

July 2025

- Developed a Streamlit-based application that generates **personalized learning paths** using the Model Context Protocol (MCP), enabling adaptive goal-driven study plans.
- Integrated with **YouTube, Google Drive, and Notion** via APIs, unifying video learning, document storage, and note-taking into one platform.
- Implemented real-time progress tracking and interactive UI, improving user engagement and learning efficiency by an estimated **30%**.
- Configured secure API-driven workflows using Google AI Studio API and Pipedream URLs, ensuring seamless multi-platform connectivity.

Student Result Analysis Portal 🔗 | React.js, Node.js, MongoDB

May 2025

- Developed a full-stack portal to visualize academic data across 8 semesters, featuring SGPA/CGPA trends, batch pass rates, and peer comparisons, reducing manual analysis time by **40%**.
- Implemented secure role-based authentication (Student/Faculty) with JWT, encrypted credentials for reliable access control.
- Designed interactive dashboards with real-time data and responsive charts (Recharts + Tailwind CSS), improving faculty decision-making and student performance tracking.

Book Recommender System 🔗 | Python, Streamlit, TensorFlow

April 2025

- Developed a personalized recommendation engine using collaborative filtering and popularity-based models, improving prediction accuracy by **15%**.
- Processed and analyzed a **1M+ record Book-Crossing dataset**, reducing preprocessing time by **30%** through optimized NumPy and Pandas operations.
- Deployed an interactive Streamlit UI for exploring the **top 50 books** and generating tailored suggestions, increasing engagement by **20%**.

Technical Skills

Languages: Python, C++, JavaScript, HTML/CSS, SQL, MongoDB.

Frameworks/Libraries: React.js, Node.js, Express.js, Tailwind CSS.

Tools/Platforms: VS Code, Google Colab, GitHub.

Achievements

- Served as a **DSA Trainer** at NRI Institute of Technology, Guntur (Sep 2025), mentoring students on Data Structures and Algorithms, coding practices, and problem-solving strategies for technical interviews.
- Secured 1st place in Error Epic coding challenge and 3rd place in Machine Learning Hackathon.
- Secured 11th place in a DSA coding contest conducted by NxtWave, competing among 4200+ participants.
