CAREER OBJECTIVE

Passionate full-stack developer with hands-on experience in building responsive, scalable, and secure web applications using JavaScript, React, TypeScript, and Node.js. Interested in contributing to cutting-edge AI-driven projects. Looking to leverage my skills to solve real-world challenges and continuously grow as a developer in a fast-paced remote environment.

WORK EXPERIENCE

EDUMOON | FRONT END DEVELOPER INTERN

May 2024 – Jun 2024

- Led frontend development, resulting in a 25% faster page load time and improved UX.
- I built and maintained responsive, user-friendly web pages using HTML, CSS, JavaScript, and jQuery.
- I ensured HTML, CSS and JavaScript were clean and well-structured, adhering to industry standards for optimal performance and accessibility.

PROJECTS

CRYPTO WEATHER NEXUS | NEXT.JS, REACT.JS, WEBSOCKETS

Apr 2025

- Built a real-time dashboard integrating live weather and cryptocurrency data using public APIs.
- Implemented WebSocket-based alert system for instant updates and notifications.
- Designed a responsive UI with dark mode support and managed global state via Redux Toolkit.

BULK ORDERING SYSTEM | REACT.JS, NODE.JS, SQL, TAILWIND

Mar 2025

Demo

- Developed secure admin dashboard to manage orders, update statuses, and control inventory.
- Integrated JWT-based authentication with role-based access for admins and buyers.
- Enabled dynamic order tracking by buyer name or contact; ensured atomic stock updates using SQL transactions.

TODO-APPLICATION | HTML, CSS, JAVASCRIPT

Feb 2025

Demo

- Created a To-do application, providing users with a simple and intuitive interface for managing tasks.
- Implemented features such as adding, editing, and deleting tasks dynamically using JavaScript, enhancing user productivity and experience.
- Utilized local storage to store task data on the user's device.
